

How can you grow your pharmacy business?

Omnicell Shingrix Vaccine Program

The Omnicell Shingrix vaccine program is available as a part of Omnicell Immunization Solutions, which targets eligible patients for vaccinations and enhances patient engagement.

Increase Shingles Vaccinations at Your Pharmacy By:

- Providing outbound awareness calls to patients about receiving their shingles vaccine when eligible
- Alerting patients who previously received Zostavax that Shingrix is now recommended
- Tracking the second dose administration of the two-part Shingrix series

Solution Benefits

- Delivers communications to patients about receiving their vaccines at the pharmacy
- Maximizes additional pharmacy service opportunities
- Streamlines your workflow using automated tools
